Hello ISU Leader!

University Human Resources (UHR) strives to partner with groups on campus like the Professional & Scientific Council. P&S Council provides a great opportunity for P&S employees to get involved in what matters to them most in their workplace. Whether employees have been on campus just a short time or for quite a while, their perspective and insight is valuable as Iowa State moves towards the future.

To enhance and further develop the employee experience, I encourage all employees to get involved, to build community, to always be curious and continuously learn. By bringing together employees from different units with different areas of expertise, P&S Council provides opportunities to identify needs, provide information, and recommend changes on behalf of P&S employees at Iowa State University.

UHR will continue to support the P&S Council and I hope you will too by allowing those interested the chance and time to participate.

Respectfully,

Kristi Darr
Interim Vice President for Human Resources
